

AGN. NO. _____

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

OCTOBER 5, 2004

Technology is building a new economy in Los Angeles County, including bio-med, digital information, multimedia, and advanced transportation industries. New ideas, new applications and new technologies are helping to build a better Los Angeles County. Contributions made by Los Angeles County universities, companies and individuals have helped secure our nation's defense, promoted our national economic well being and increased our quality of life. From aerospace to medicine, agriculture to entertainment, Los Angeles County has been and always will be the technological hub of Southern California.

Therefore, to celebrate the many technologies that have made our County the worldwide leader in many fields, I move that the week of January 24, 2005 through January 28, 2005 be proclaimed Los Angeles County Technology Week.

I, THEREFORE, MOVE that the Board of Supervisors Proclaim the week of January 24, 2005 through January 28, 2005 Los Angeles County Technology Week.
